Pressure Manways to AS1210 certified

Available in 304 S/S or 316 S/S
Pressures up to 3 Bar & Full Vacuum

Inox Fabrications manufacture in house pressure manways specifically designed for the food & chemical industries.

Robust fully welded stainless steel construction & quality sanitary finish, Inox manways are an excellent alternative to imported pressure manways that often do not conform to Australian standards and require additional modification to meet these standards.

Material certificates supplied with each manway manufactured.

Inox stock quantities of manways for quick delivery.

Features:

Easy opening handwheels.
Hinged Lid with stop.
Handle on lid.
Available with built in CIP
sprayball.

Sizes available:

Diameter :
450mm
500mm
600mm

Available finishes:

120 Grit
180 Grit
Mirror finish

Contact Inox Fabrications for further information regarding manways for tanks and other specialty tank equipment.
